

Welcome to the ClearDATA customer documentation. Our solutions help healthcare and life science companies safely innovate with a wide range of cloud services.

The ClearDATA Comply™ product deploys many advanced security and compliance services to simplify management of public cloud environments while helping you maintain compliance with many regulations, e.g., HIPAA GDPR, HIPAA, SOC2, GxP.

ClearDATA Comply™ with Healthcare Managed Services

ClearDATA Comply™ with Healthcare Managed Services includes our software platform, software support and platinum tier of healthcare managed services. The Software platform includes automated safeguards for various cloud providers such as AWS, Azure and GCP as described below . Additionally platinum managed services are described here.
